Maya Heilpern
Web Developer

Linkedin | Github | Portfolio | chayaheilpern@gmail.com

I am a detail-oriented web developer with the ability to adapt and learn quickly. I have a background in accounting which enables me to examine problems from a logical point of view and break them down easily. I thrive in fast-paced team-oriented environments and have a passion for acquiring new technical skills.

SKILLS

Programming Languages: JavaScript, Ruby, SQL, CSS, HTML
Platforms and Frameworks: React, Node.js, Express, MongoDB, GIT, Rails, Postgresql
Other Skills: RESTful API's, GitHub, Mongoose, Heroku, Bootstrap, Netlify, TailwindCSS, Application & Database Object-Oriented, Encapsulation, Algorithms, Data Structures, Debugging, Responsive Design

PROFESSIONAL EXPERIENCE

Software Engineering | General Assembly | November 2021 – March 2022

Coded and a portfolio featuring individually and collaboratively-created projects, including:
